SUMMARY

Junior front-end web developer with a B.S. in New Media Interactive Development from Rochester Institute of Technology. Experienced developing responsive web applications using React, TypeScript, JavaScript, HTML, and CSS, with hands-on experience in REST API integration and collaborative Git-based development. Focused on building intuitive, user-centered web experiences.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript

Web: HTML, CSS, Responsive Design, REST API Integration

Frameworks & Libraries: React

Tools: Git, GitHub, VS Code

Design & Interactive: Figma, Unity, Photoshop, Illustrator, UI/UX Design

EXPERIENCE

Golisano College of Computing, Rochester Institute of Technology | Rochester, NY
Web Developer — Co-op | May 2025 – December 2025

- Developed user-facing features using React and TypeScript for an application focused on connecting developers and designers.
- Troubleshot and resolved UI/UX issues and application bugs, improving usability, responsiveness, and application stability.
- Contributed code to a shared Git/GitHub codebase while collaborating with a team of developers on feature development and bug fixes.

PROJECTS

WeatherRoom **Personal Project | May 2026 – July 2026**
React • TypeScript • REST API

- Designed, developed, and deployed a responsive weather application using React and TypeScript.
- Integrated the OpenWeatherMap REST API to retrieve and display real-time weather conditions and future forecasts.
- Implemented city search, an interactive radar, saved locations with local storage, animated weather backgrounds, and light/dark modes.
- Built reusable React components and responsive interfaces, with deployment through GitHub Pages.

Don't Run With Scissors **RIT Capstone Project | September 2025 – May 2026**
Unity • Arduino • Interaction Design

- Developed an alternate-controller game integrating Arduino hardware with Unity-based gameplay.
- Helped translate physical gestures, including controller tilting, into interactive gameplay mechanics.
- Collaborated as part of a nine-person development team on gameplay, iteration, and interaction design.
- Selected as an alt.ctrl.GDC 2026 finalist and exhibited at GDC Festival of Gaming.

EDUCATION

Rochester Institute of Technology | Rochester, NY
Bachelor of Science — New Media Interactive Development | 2026
Summa Cum Laude | **GPA:** 3.80 | **Dean's List:** Fall 2021 – Spring 2026
