SUMMARY

Junior front-end developer with a B.S. in New Media Interactive Development from Rochester Institute of Technology. Experience independently developing responsive React, TypeScript, and CSS interfaces, integrating REST APIs, and debugging application issues, with Git/GitHub version control and interdisciplinary project collaboration.

TECHNICAL SKILLS

Languages and Web: JavaScript, TypeScript, HTML, CSS, Responsive Design, REST API Integration
Frameworks and Tools: React, Git, GitHub, VS Code, Debugging
Design and Interactive: Figma, Unity, Arduino, Photoshop, Illustrator, UI/UX Design

EXPERIENCE

Golisano College of Computing, Rochester Institute of Technology | Rochester, NY
Web Developer - Co-op | May 2025 - December 2025

- Diagnosed and resolved site crashes and responsiveness issues using React, TypeScript, and CSS as part of the bug-fixing team for an application connecting developers and designers.
- Repaired malfunctioning features to restore expected application behavior.
- Independently completed assigned bug fixes and contributed changes to a shared codebase using Git and GitHub.
- Shared work progress during daily team stand-ups.

PROJECTS

WeatherRoom | Personal Project | May 2026 - July 2026
React | *TypeScript* | *REST API*

- Designed, developed, and deployed a responsive weather application using React and TypeScript.
- Integrated the OpenWeatherMap REST API to display real-time weather conditions and forecasts.
- Implemented city search, interactive radar, saved locations using local storage, animated weather backgrounds, and light/dark modes.
- Built reusable React components and responsive interfaces; deployed the application through GitHub Pages.

Don't Run With Scissors | RIT Capstone Project | September 2025 - May 2026
Unity | *Arduino* | *Interaction Design*

- Developed an alternate-controller game integrating Arduino hardware with Unity-based gameplay.
- Helped translate physical gestures, including controller tilting, into interactive gameplay mechanics.
- Collaborated with a nine-person interdisciplinary team on gameplay, iteration, and interaction design.
- Project selected as an alt.ctrl.GDC 2026 finalist and exhibited at GDC Festival of Gaming.

EDUCATION

Rochester Institute of Technology | Rochester, NY
Bachelor of Science - New Media Interactive Development | 2026
Summa Cum Laude | GPA: 3.80 | Dean's List: Fall 2021 - Spring 2026
